Decision Rendered.

Judge C. E. Nicol today rendered his decision in the case of Jno. P. Agnew & Co. against the Jackson-Phillips Brick Company, in which the court held that the allegations of the complainant's bill that the Jackson-Phillips Brick Company is insolvent and has ceased to be a going concern is sustained, and that the injunction heretofore awarded in the case should not be dissolved, but that the case should be retained on the docket in order that all and complete justice may be done the various interests involved in the case, and that the property of the company should be sold under the decree of the court and by commissioners to be appointed, to be composed of the attorneys representing the complainants and defendants in the case. The exceptions of the complainants to the validity of the attachment of Hugh J. Phillips and to the validity of \$19,000 of first mortgage bonds held by William H. Jackson were overruled. The exceptions of Mertens & Agnew and of the defendant, William H. Jackson, to the finding of the commissioner on the claim of Mertens & Agnew were overruled and the report of the commissioner in that respect confirmed. The exception of the complainants and others to the report of the commissioner as to the application of \$13,100 received by William H. Jackson as the proceeds of a sale of a part of the property of the Jackson-Phillips Brick Company conveyed to the Washington Southern Railway Company, were sustained and the court ruled that the \$13,100 should be applied first to the payment of taxes accrued on the land, and second, the balance pro tanto on the indebtedness secured under the first deed of trust. The decision substantially sustains the contentions made on the part of the complainants, Jno. P. Agnew & Co., except in the particulars above named. The complainants were represented by Col. F. L. Smith and J. R. & H. B. Caton, and defendants by Messrs. Norton & Bothe and Hufty & Hufty.

Sewer Pipe in Position.

Another section of sewer pipe to be placed in position at the outlet of the big sewer on the river a short distance north of Shepherd's landing was on Tuesday taken to the site of the outlet and was lowered in place yesterday for the divers to make the couplings with the sections already in position and to anchor the pipe with tons of concrete placed above and around it. Three sections of the big pipe, which is six feet in diameter and about ten feet long, were joined together at the yard on the Eastern branch and were suspended between two scows. In this manner the long cylinder was carried to the site of the sewer and lowered by means of derricks between the scows into position. The handling of the heavy and unwieldy pipe in this manner required much skill in adjusting it to prevent slipping on the trip to the sewer outlet, and all steamers passing the scows and their burden on the river slowed down to give them a wide berth in order to make as little sea as possible.

Police Court.

[Justice H. B. Caton presiding.] The following cases were disposed of this morning: Joseph Adams and Fred Watkins, both colored, arrested by Officer Lyles for disorderly conduct, were fined \$5 each. Melville Newman, arrested by Officer Jones charged with disorderly conduct and flourishing a knife, was fined \$10. James Watkins, arrested by the same officer charged with assaulting Roscoe Watkins, forfeited his collateral by failing to appear. Charles Lloyd, arrested by Special Officer Mullin charged with escaping from the work house, was dismissed upon promising to secure employment.

Fined Five Dollars Each.

The cries of murder heard at the extreme southern end of Pitt street about 11 o'clock Tuesday night was the outcome of a fight between two negroes. Officer Lyles last night arrested several darkies, among whom were Joseph Adams and Fred Watkins, who proved to be the originators of the trouble. Watkins, who was attending a bar, got into a difficulty with Adams, during which the latter armed himself with stones. Before the crowd dispersed several other negroes became involved in the difficulty. Adams and Watkins were fined \$5 each in the Police Court this morning.

The Electric Plant.

Mr. C. C. Carlin, the local attorney for Mr. E. E. Mandeville, of Philadelphia, who has been granted the electric franchise in Alexandria, returned today from Philadelphia where he has been on business connected with the franchise. He says Mr. Mandeville has already given contracts for part of the material to be used in the construction of the plant and that he expects to commence work on the necessary building in a short time. A charter for the company to operate the plant has been applied for and will be secured in a few days.

Lights for Upper King Street.

The action of the county authorities in stopping the Washington-Southern Railway Company from placing lights on King street extended is said to have been caused by the failure of the company to place the poles on that thoroughfare in proper positions. Most of the poles are out of plumb and the authorities contend they should be placed in upright positions. When this shall have been done the county authorities will be glad to see additional lamps hung.

Fall of Electric Wire.

There was another collapse of electric railway wire at the intersection of King and Fairfax streets between 6 and 7 o'clock yesterday evening. The wire extending on Fairfax street from King to Prince, sagged dangerously near the ground for a time. The fall of wire is almost an ever day occurrence, and it is feared that a serious accident will sooner or later result.

Capsizing of a Launch.

A naphtha launch from Washington, containing five men, capsized in the dock of the Mutual Ice Company at the foot of Cameron street yesterday evening. The accident is said to have been caused by all the occupants seating themselves on one side of the boat. Several persons who were nearby at the time went to the rescue of the men who were soon landed on the wharf. The submerged launch was later towed to the foot of Prince street.

Drew a Knife.

A negro youth named Melvin Newman visited the old fair grounds last night where he became involved in a difficulty with some of the employees of the carnival company now exhibiting on the grounds. Newman drew a knife and acted in a menacing manner toward two members of the company. He was later arrested by Officer Jones and this morning Justice Caton fined him \$10.

A romance came to light at the Western State Hospital at Staunton yesterday, in which a young lady physician of Baltimore played a leading part.

Dr. Jessie M. Thornton came from Baltimore last spring to accept a position on the medical staff of the hospital to take charge of the female wards. Ten days ago she resigned. The time expired yesterday and she left for Wheeling, West Virginia.

She explained before leaving that she had been married to Dr. McClung Scott, now of Wheeling, but formerly on the Western State Hospital staff. She gave no particulars of the marriage, she has now gone to join her husband, leaving a vacancy for a female physician.

Planning to Attack Will.

Plans of attack upon the will of Russell Sage are being prepared by the relatives, and according to the last conference it is considered advisable to begin by filing objections on September 2, when the citations are returnable.

The ground on which such a contest could be made, in the opinion of the kinsmen of the late financier, is that the testator was not capable of making a will for five or six years before his death. Wall street men who were seen yesterday doubt if anyone could prove that in 1901, when the will was made, Mr. Sage was not fully capable of disposing of his property. They point out that in 1901 he was conducting extensive operations, that he was in contact with some of the brightest minds of the financial world, and that he never betrayed the slightest sign of not being in command of his faculties. Had the will been made two years ago they think there might be some chance of contesting it. It was pointed out that if the question were ever raised scores of brokers and bankers could be brought forward who would testify that Mr. Sage was entirely able to take care of his money. The question is also raised as to whether or not a man could be unduly influenced by his wife.
